How to Purchase AVAX Tokens

It is easiest to purchase AVAX tokens through one of the centralized exchanges such as Coinbase, Binance or KuCoin. In this guide you will get the step by step instructions on how to transfer your AVAX tokens to your Metamask crypto wallet, once you have purchased from any of the mentioned exchanges.

OK, now that you have your AVAX tokens purchased in one of the exchanges, let us transfer your AVAX tokens to your Metamask Wallet.

Instructions for setting up Avalanche on Metamask Wallet

Install Metamask

If you don't already have a Metamask Wallet, you need to get one. It is available either as an app or as a browser extension.

Connect Metamask to Avalanche

When you have logged into Metamask > Select Settings within the Metamask app or from the top right hand corner from the Metamask browser extension > Select Networks - Add Network.

Enter the following Avalanche information (make sure everything is correct:

- Network Name: Avalanche Network
- New RPC URL: https://api.avax.network/ext/bc/C/rpc
- ChainID: 43114
- Symbol: AVAX
- Explorer: https://cchain. explorer.avax.network/

Select Save. Now you have connected your Metamask Wallet to the Avalanche Network. Let us continue.

Now copy your Metamask C-chain address. You will need it later.
